Responsibility for Consolidated Financial Statements

The accompanying consolidated financial statements for Opel International Inc. have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. The most significant of these accounting principles have been set out in the December 31, 2007 audited consolidated financial statements. Only changes in accounting information have been disclosed in these consolidated financial statements. These statements are presented on the accrual basis of accounting. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of the unaudited consolidated financial statements, management is satisfied that these unaudited consolidated financial statements have been fairly presented.

Auditors' involvement

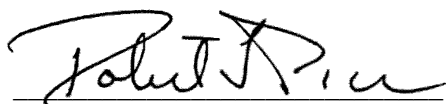

The auditors of Opel International Inc. have not performed a review of the unaudited consolidated financial statements for the three and six months ended June 30, 2008 and June 30, 2007.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDING JUNE 30, 2008
(Unaudited)

1. DESCRIPTION OF BUSINESS

Opel International Inc. (the "Company"), incorporated in the Province of Ontario and continued in the Province of New Brunswick on January 30, 2007, is in the development stage and is engaged principally in the development and marketing of concentrating solar panels for commercial applications, additionally, the Company continues to develop a gallium arsenide microchip and the process to produce it. The Company's research and development ("R&D") efforts relate to the commercialization of CPV solar panels, solar trackers; also optical laser and infrared detection using planar opto electronic technology ("POET"). Through June 30, 2008, the Company has provided, incidental to its own extensive R&D activities, services under "fixed price" and "cost plus" R&D contracts exclusively with the Department of Defense of the United States of America. Such services are provided to the Department of Defense through Opel Defense Integrated Systems Inc. ("ODIS"), a newly incorporated company in the United States of America through the Company's wholly owned subsidiary; Opel Inc.

2. ACCOUNTING POLICIES

The unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes to the consolidated financial statements required by Canadian generally accepted accounting principles for annual consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included.

Operating results for the six month period ended June 30, 2008 may not necessarily be indicative of the results that may be expected for the year ending December 31, 2008. The consolidated balance sheet at December 31, 2007 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by Canadian generally accepted accounting principles for annual consolidated financial statements. The interim consolidated financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual audited consolidated financial statements for the year ended December 31, 2007. For further information, refer to the audited consolidated financial statements and notes thereto for the year ended December 31, 2007.

Adoption of New Accounting Policies

Effective January 1, 2008, the Company adopted the provisions of the following new CICA Handbook Sections:

(i) Inventories:

CICA Handbook Section 3031, Inventories, replaces corresponding Section 3030 and establishes new standards for the measurement and disclosure of inventories. This new section requires inventories to be measured at the lower of cost and net realizable value, provides guidance on the determination of cost and requires the reversal of prior period write-downs when the net realizable value of impaired inventory subsequently recovers. The adoption of this section had no impact on the unaudited interim consolidated financial statements.

(ii) Financial instruments:

CICA Handbook Section 3862, Financial Instruments – Disclosures, and Handbook Section 3863, Financial Instruments – Presentation, enhance existing disclosure requirements and place greater emphasis on disclosures related to recognized and unrecognized financial instruments and how those risks are managed.

2. ACCOUNTING POLICIES (continued)

In accordance with Section 3862, the Company is required to disclose the classifications of its financial instruments into one of the following five categories:

- held-for-trading
- held-for-maturity investments
- loans and receivables
- available-for-sale financial assets
- other financial liabilities

The new disclosures required by Section 3862 are included in note 15. The adoption of these standards had no material impact on the unaudited interim consolidated financial statements.

(iii) Capital disclosures:

Handbook Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such noncompliance. The Company has included disclosures recommended by the new Handbook section in note 14 to these interim consolidated financial statements.

The adoption of this standard did not have a material impact on the unaudited interim consolidated financial statements

Future Accounting Pronouncements

(i) Goodwill and Intangible Assets

In February 2008, the CICA issued Section 3064, Goodwill and Intangible Assets, replacing Section 3062, Goodwill and Other Intangible Assets and Section 3450, Research and Development Costs. The new pronouncement establishes standards for the recognition, measurement, presentation, and disclosure of goodwill subsequent to its initial recognition and of intangible assets by profit-oriented enterprises. Standards concerning goodwill are unchanged from the standards included in the previous Section 3062. This Section is effective in the first quarter of 2009, and the Company is currently evaluating the impact of the adoption of this new Section on its consolidated financial statements.

(ii) Convergence with International Financial Reporting Standards

In 2006, Canada's Accounting Standards Board ratified a strategic plan that will result in Canadian GAAP, as used by public companies, being evolved and converged with International Financial Reporting Standards (IFRS) over a transitional period to be complete by 2011. The official changeover date from Canadian GAAP to IFRS is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. As the International Accounting Standards Board currently has projects underway that should result in new pronouncements and since this Canadian convergence initiative is very much in its infancy as of the date of these statements, the Company has not yet assessed the impact of the ultimate adoption of IFRS on the Company.

10. STOCK OPTIONS AND CONTRIBUTED SURPLUS

On July 27, 2007, the Company's 10% rolling stock option plan (the "Rolling Plan") under which the board of directors may grant options to acquire common shares of the Company to qualified directors, officers, employees and consultants, was ratified by the Company's shareholders for the ensuing year. The Plan provides that the number of common shares issuable pursuant to options granted under the Plan and pursuant to other options previously granted is limited to a maximum of 10% of the issued and outstanding voting shares at the time of the grant. The options granted under the plan generally vest immediately upon issuance, however, the directors may, at their discretion, specify a longer vesting period.

On June 19, 2008, shareholders of the Company approved a new fixed 20% stock option plan (the "New Plan"). Under the New Plan, the board of directors may grant options to acquire common shares of the Company to qualified directors, officers, employees and consultants. The Plan provides that the number of common shares issuable pursuant to options granted under the New Plan and pursuant to other previously granted options is limited to 11,930,000 (the "Number Reserved"). Any increase in the Number Reserved must be ratified by shareholders of the Company and cannot exceed 20% of the number of issued and outstanding. Options granted under the New Plan generally vest 25% immediately and 25% every six months from the date of issue, however, the directors may, at their discretion, specify a longer vesting period.

Stock option transactions and the number of stock options outstanding are as follows:

	Number of stock options		Weighted average exercise price

14. CAPITAL MANAGEMENT

In the management of capital, the Company includes shareholders equity, excluding accumulated other comprehensive income, cash and short-term investments. The Company's objective in managing capital is to ensure that financial flexibility is present to increase shareholder value through organic growth and responding to changes in economic and/or market conditions; to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business and to safeguard the Company's ability to obtain financing should the need arise.

14. CAPITAL MANAGEMENT (Continued)

Currently, the Company has no outstanding debt or covenants, and therefore has no externally or internally imposed capital requirements. As soon as the Company is able to raise debt financing on favourable terms, it may consider this form of capital compared to equity financing, allowing for minimum dilution and maximum shareholder value.

In maintaining its capital, the Company has a strict investment policy which includes investing its surplus capital only in highly liquid, highly rated financial instruments.

The Company reviews its capital management approach on an ongoing basis. There were no changes in the Company's approach to capital management during the period.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash, short-term investments, accounts receivable, marketable securities, accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments. The Company estimates that the fair value of these instruments approximate the carrying values due to their short term nature.

Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of short term investments and accounts receivable. Short-term investments consist of US and Canadian treasury notes, corporate bonds and Canadian government bonds, held with reputable financial institutions from which management believes the risk of loss is remote. The Company has accounts receivable from parties in various industries and governmental agencies that are currently concentrated in the United States of America. Management does not believe that there is significant credit concentration or risk.

Exchange Rate Risk

The Company transacts a significant portion of its business in US currency and is therefore exposed to currency fluctuations.

Interest Rate Risk

Short-term investments bear interest at fixed rates, and as such, are subject to interest rate risk resulting from changes in fair value from market fluctuations in interest rates. However, due to the nature of the Company's investments, such changes in interest rate would have limited impact on the Company over the short term.

Liquidity Risk

The Company has no income and relies on equity fund raising to support its R&D program. Management prepares budgets and ensures funds are available prior to commencement of any such program. The Company has sufficient capital to fund its operations over the next twelve months.

Market Risk

Market risk arises from the possibility that changes in market prices will affect the value of the financial instruments of the Company. The Company is exposed to fair value fluctuations on its short-term investments and marketable securities. The Company's other financial instruments (cash, accounts receivable and accounts payable and accrued liabilities) are not subject to market risk, due to the short-term nature of these instruments.
